Please join us for a Focus Group for the D16 Diversity Plan Process – **this is your opportunity to be involved in making policies to improve the schools in your district!**

This will be a small group meeting with D16 community members like yourself. We will explain more about the D16 Diversity Plan Process, and you will share your goals and priorities on how to promote K-12 school diversity and set D16 students on a path to even greater academic success.

We need to hear your voice! Your input matters and your community can help set the policies for your school district.
